

REMARKS

In accordance with the foregoing, inadvertent typographical errors in various of the claims are corrected, without change of substance and without the introduction of new matter. Clear support for the changes is available in the specification and which is apparent by reference to other claims which recite the correct terminology.

For example, the change of "stripe" to --layer-- in claim 35/29 is necessary for antecedent support relative to the independent claim 29 and, moreover, claim 35/29 as thus amended is consistent with and provides antecedent support for claim 36/35, which likewise recites "the phosphor layer...." That same change is also made in claim 70/64 which, in like fashion, now has proper antecedent support in independent claim 64 and affords consistent recitation with and antecedent support for claim 71/70. Note also independent claim 73 and corresponding dependent claims 78/73 and 79/73, which all consistently recite "phosphor layer...."

Independent claim 38 includes a change in line 3 of "in" to --on-- and the same is thus rendered consistent with the preamble of independent claim 47 at line 2; claim 38 further was incomplete for not reciting --, comprising-- at the end of the preamble, as is now inserted therein.

Claims 60/38 and 61/47 each include the superfluous word "the" and the same has been deleted since there is no prior recitation of "at least a portion of the address electrode..." in the respective independent claims 38 and 47 from which claims 60 and 61 respectively depend.

Finally, claim 82 in the third paragraph in the body, the last line, has been amended to insert --, and--, thereby to improve the grammatical context of the related recitation.

The deficiencies in the claims, corrected by the foregoing amendments, were only identified as of reviewing the allowed claims hereof in light of the Notice of Allowance and Issue Fee Due, mailed February 20, 2004, and thus the present amendments could not have been earlier presented.

Accordingly, approval and entry of the foregoing claim amendments are respectfully requested.

Serial No. 09/654,894

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
